DOWNSIZING OF NaCOVERC OPERATIONS

As the current fight against the COVID-19 pandemic in the country is indicating a downward trend in the infection rate, coupled with the ongoing rollout of vaccines nationwide, NaCOVERC is desirous of bringing down the workforce to reflect the current epidemiology of the COVID-19 virus in the country.

There is need for financial prudence and accountability, hence the downsizing which is meant to keep a lean but effective Response structure in place that can cope with delivering the emergency.

Moving forward, all Pillar Leads will be engaged to ensure that the exercise is well planned and executed by the expiration of all personnel contracts on 30th April 2021.

This letter is meant to convey this management decision to all Pillar Leads, Regional and District Coordinators with a view to have them prepare adequately to effect outcomes when decided.

Management will communicate further as new information becomes available.
