Freetown

2nd November, 2021

Dear Sir,

Re: In Country Timber Transportation

With reference to the suspension of in-country timber transportation, I'm writing to inform you that the suspension ended on the 31st October, 2021 which means transportation of in-country timber resumed on the 1st November, 2021.

In the circumstance I'm most respectfully urging that you notify all Local Unit Commanders and personnel manning checkpoints to allow the transportation of timber unhindered.

Whilst thanking you in advance, I remain hopeful that this matter is treated with utmost urgency to avoid any embarrassment on the part of the traders and transporters. Attached for ease of reference is copy of the press release suspending in country timber transportation

Yours sincerely,

Babadi Kamara

CEO Leadway Trading Company
